SUMMARY

Business Data Analyst with ~3.5 years of experience turning operational, customer, and business data into actionable insights for SaaS and service-driven environments. Led development of 10+ Power BI dashboards and automated reporting workflows, cutting manual effort by ~30% and improving reporting accuracy by 20%. Partnered with cross-functional stakeholders to deliver performance analysis and KPI tracking that support strategic decision-making. Seeking to apply analytical expertise to drive data-informed growth and operational excellence in a senior analytics role.

EDUCATION

Trine University **Aug 2023 - Aug 2025**
MS, Business Analytics *Detroit, MI*

PROFESSIONAL EXPERIENCE

Source Sphere LLC **Aug 2026 - Present**
Business Data Analyst
- Analyze business performance metrics and data from multiple internal and external sources using SQL, Power BI, and Excel, identifying trends, patterns, and actionable insights that support data-driven decision-making.
- Develop dashboards, reports, and data visualizations to monitor KPIs and deliver insights to business stakeholders.
- Perform data quality checks and maintain documentation for datasets, reports, dashboards, and business metrics.
- Translate business requirements into data-driven analytical solutions, conduct ad-hoc and business process analysis, and prepare reports and presentations for management and business stakeholders.
- Collaborate with data engineers, software teams, and business analysts to support forecasting, trend analysis, and reporting automation using Python.

Allied American Agency **Oct 2025 - Aug 2026**
Data & Business Analyst
- Analyzed operational and customer datasets of 50K+ records each month using SQL and Power BI, delivering insights that guided service performance improvements and informed workload distribution decisions
- Developed and maintained 10+ Power BI dashboards and KPI scorecards used by leadership to track operational performance and customer service metrics.
- Automated recurring SQL-based reporting processes, reducing manual reporting effort by approximately 30%.
- Improved reporting accuracy by 20% through structured data validation, reconciliation, and documentation procedures.

Radiant Infosystems Pvt. Ltd. **Jan 2022 - Jul 2023**
Junior Business Data Analyst
- Analyzed enterprise SaaS and operational datasets across 8+ business functions using SQL and Excel, uncovering usage trends and performance drivers that guided product-roadmap decisions and boosted feature adoption
- Built recurring reports and analytical datasets supporting 20+ business users across operations and management teams.
- Automated reporting workflows, reducing manual effort by approximately 25%.
- Improved reporting reliability by 15% through data quality assessments, validation checks, and reconciliation processes.

Sreekaram Enterprises **Jan 2021 - Dec 2021**
Data Analyst / Business Operations Analyst
- Analyzed operational and transactional datasets comprising 15K+ monthly records to support business reporting and performance monitoring.
- Developed Excel-based dashboards tracking 10+ operational KPIs and business performance indicators.
- Reduced report preparation time by approximately 20% through reporting standardization and process improvements.
- Improved data accuracy by 15% through structured cleansing, validation, and reconciliation procedures.

PROJECTS

Operational Performance Dashboard Suite
- Designed, developed, and maintained 10+ interactive Power BI dashboards and KPI scorecards used by leadership to monitor operational and customer service performance.
- Automated reporting workflows supporting analysis of 50K+ monthly records, reducing manual reporting effort by approximately 30%.

Business Performance Analytics Framework
- Analyzed operational and business datasets across 8+ functional areas to identify trends, workload distribution patterns, and performance improvement opportunities.
- Delivered KPI dashboards and executive reports supporting data-driven decisions for 20+ business stakeholders while improving reporting efficiency by 25%.
